

## Child Home Safety Equipment

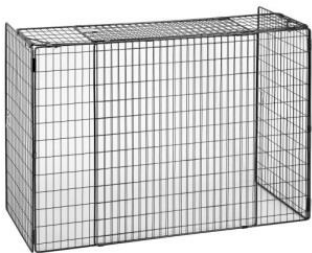

Accidental injuries are a major health problem throughout the United Kingdom. Every year more than 5000 people die in accidents in the home. Those most at risk are the 0-4 age group. Most accidents are preventable through increased awareness, improvements in the home environment and greater product safety.

**Sefton's Children's Centres** provide a service to arrange the installation of child home safety equipment to families across the borough. One of the long term objectives is to promote the understanding of the importance of safety in the home.

Equipment available includes: safety gates, fire guards, window locks, cupboard locks, cord winders, bath mats and corner cushions.

Fittings take place across the borough of Sefton, evidence gathered have been very positive from both a professional's perspective and the benefiting family. Since the campaign began over **3270** homes across Sefton have benefited.

**ASK YOUR HEALTH VISITOR OR LOCAL CHILDREN'S CENTRE  
TO REFER YOU TO THE SCHEME**

"Superb! I am absolutely delighted. The fitter was great".

"Fantastic-it has made a huge difference to my family".

"What a brilliant job, its made a lot of difference"

"Brilliant

Excellent service, the fitter was so considerate"
